

ILUSION
& ARTE

by İkonİa DESIGN

ALL IS ABOUT...

"We design spaces and spaces design us. We are space, not just part of it."

IMAGINATION

The heartbeat of a house and the necessary change in collective consciousness

Less is more. Do we really need so much?

It's all also about optimized design, elegance, comfort and functionality.

Physically and visually clean spaces are not only **good** for our health and emotional well-being, they also make maintenance easier and more economically profitable, they also encourage us to exercise responsible consumption and for that the world graciously thanks.

The space we inhabit is the reflection of the **deepest** part of our souls, being able to recognize ourselves in every detail of the space we are part of. In ILUSIONarte we will be your guide in this wonderful journey of self-knowledge, search and realization of the dream to create **happy** homes.

Tell us about your
Dreams...

The sky is the **limit.**

PHILOSOPHY

WELCOME
TO

ILUSION
& ARTE

by İkonía DESIGN

TEAM

We are a team of architects and designers who love what we do and our greatest satisfaction is to improve people's lives and enjoy each process and project delivered. The love and joy of our clients is our goal.

TIMING

We want share with you all phases of the project process from the very beginning. Together we will choose the design that best suits your needs. Once everything is defined, don't worry, we will take care of every detail.

PROVIDERS

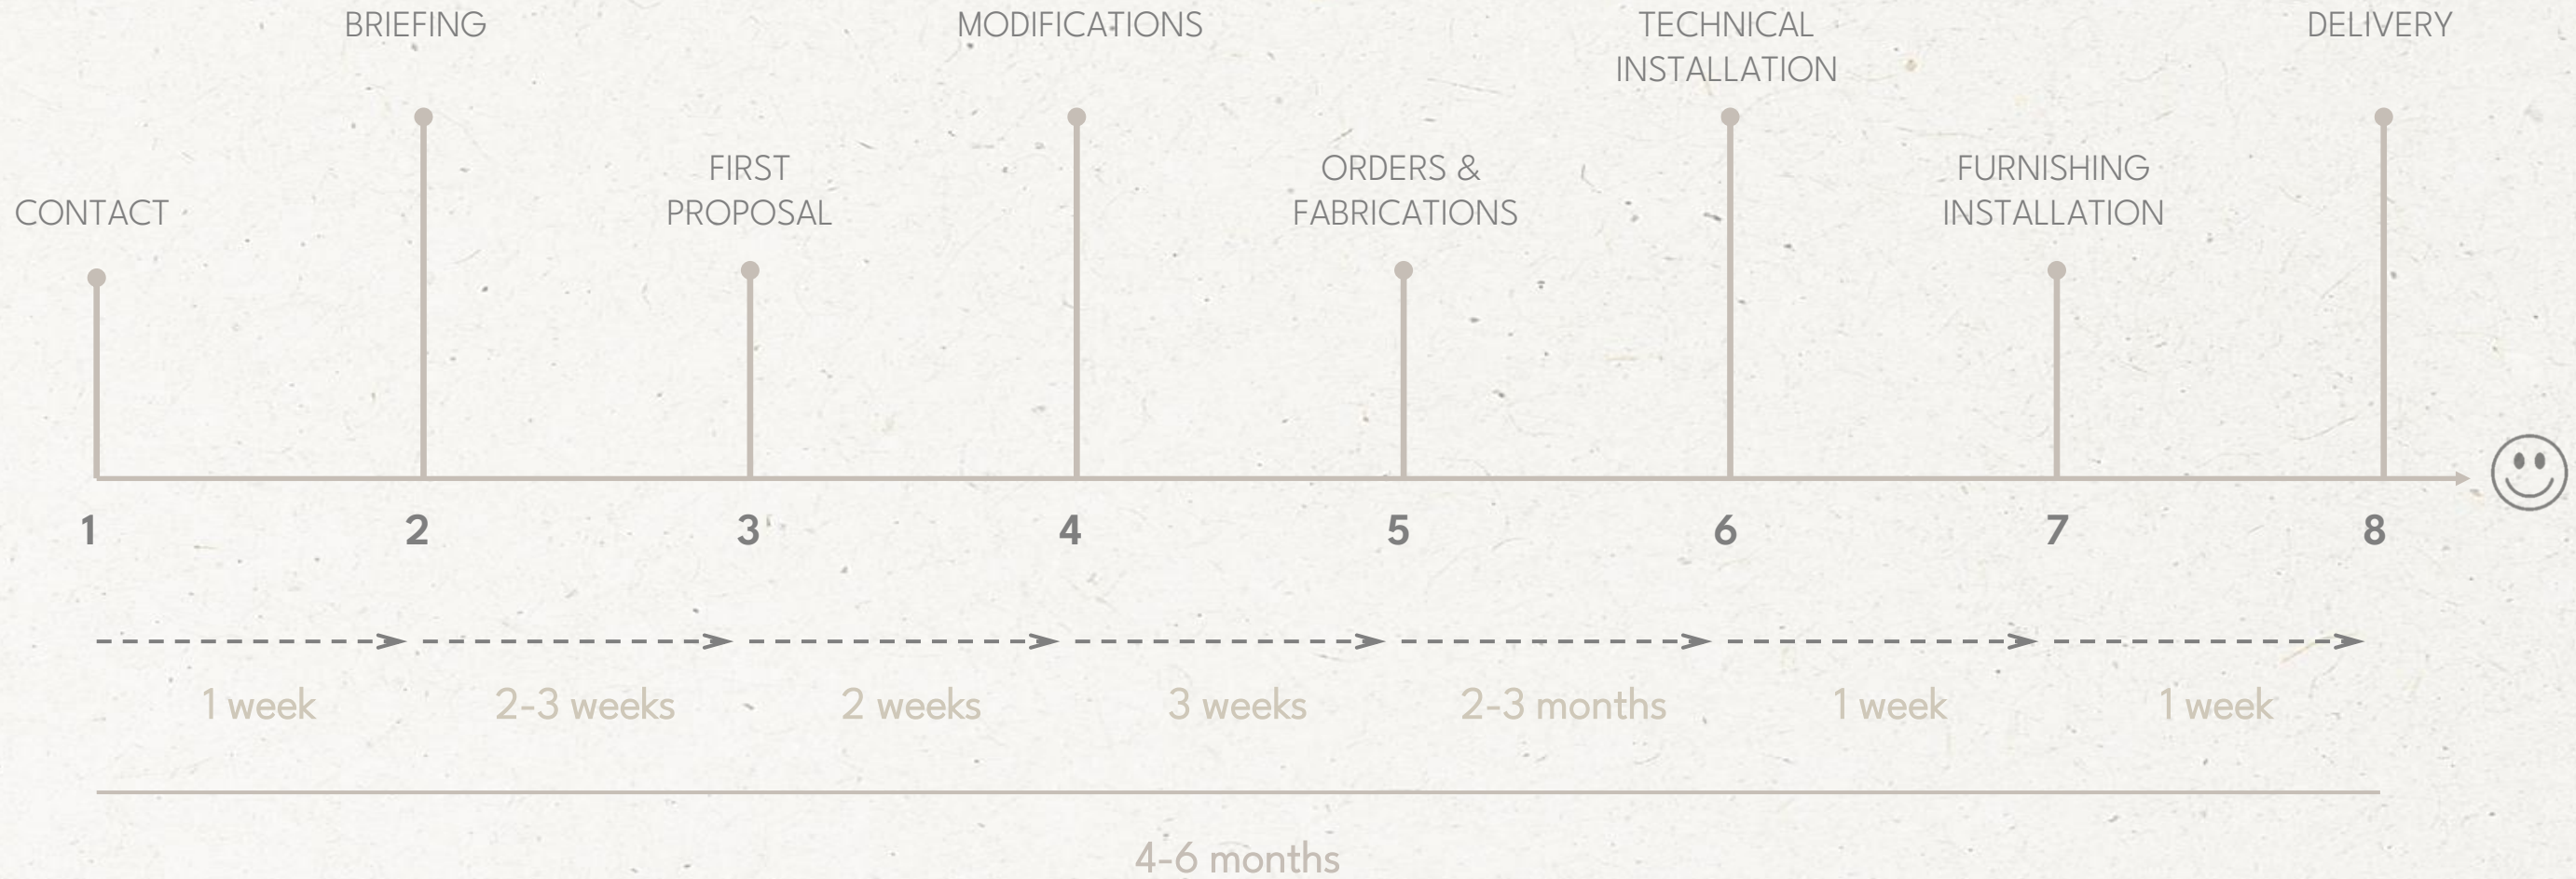

We work with the best collaborators; our trusted network of professionals guarantees that every task or element chosen is great value for money. You will find here the best designs, materials, with the guarantee of functionality and durability.

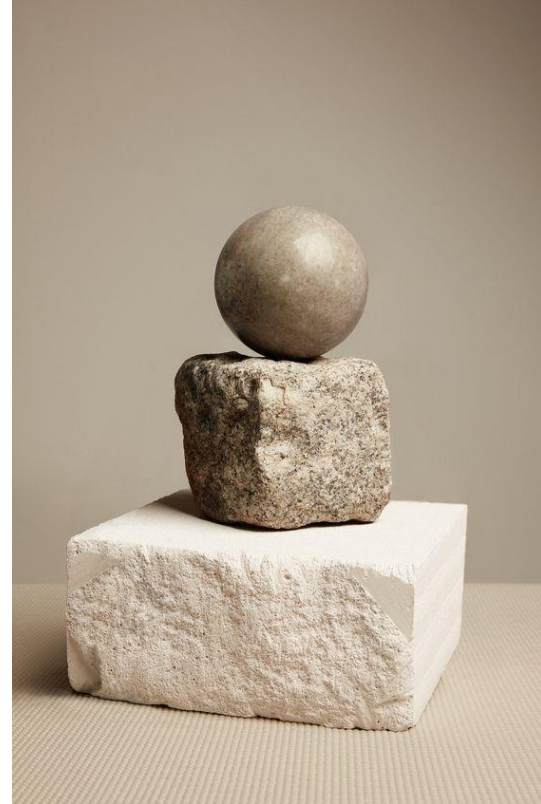

INSTALLATION

We also have storage, transportation and an installation team so no worries at all. We will take care of everything, and you don't have to worry about a thing, just enjoy the big day of your home delivery.

SERVICE

DESIGN PROCESS

The good design can be measured

Good design can be measured through the sensations we perceive as a result of the stimuli in our immediate environment.

That's how important good **design** is!
It has a solid, clear, and effective concept, because it is truly able to modify our emotions, well-being and cognitive capacity.

We bring creativity to your ideas, always focusing on functionality and innovation. with a magical touch of **elegance**

CONCEPT

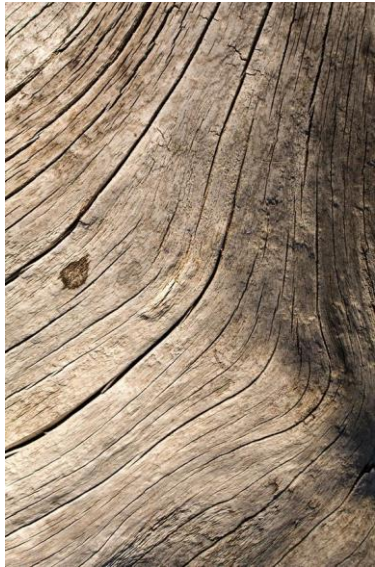

Our way of **working** projects reflects us, the part we want to leave in people's **hearts**.

Our concepts, vision, avant-garde design and pure lines will be **present** in every corner of your home.

MATERIALS

Through a harmonious balance of **sophistication**, simplicity, and appreciation for quality we achieve a wonderful lifestyle.

Whether in fashion, decoration or experiences, good taste is reflected in every detail.

Beyond aesthetics our way of seeing life is about the way of goodness and a **genuine** respect for oneself and others. Here you will find an authentic place with authentic people and lifestyle.

Would you like to **join us**?

LIFESTYLE

Exclusive design is much more than just pieces of furniture; they are true works of art that transform any space into an oasis of elegance and **sophistication**.

Each piece is carefully designed to fuse functionality with aesthetic beauty, creating furniture that is one of a kind. From chairs and tables to sofas and sideboards, each exclusively designed piece of furniture is an **expression** of creativity and craftsmanship excellence.

Crafted from the highest quality materials, such as fine woods, precious metals or luxurious fabrics, ensuring durability and distinction.

Exclusive design is much more than just objects; they are timeless investments that transform ordinary spaces into extraordinary places full of **style** and personality.

UNIQUE

1 MOODBOARDS

Moodboards are essential tools in the creative process, providing a visual collage of ideas, colors, textures, and themes. They serve as a **creative** roadmap helping to conceptualize and communicate their vision for a project. By compiling images, swatches, and inspiration onto a single board, moodboards inspire creativity, facilitate collaboration, and ensure a cohesive **aesthetic** direction.

Whether used in fashion design, interior decorating, moodboards are invaluable for sparking inspiration and bringing **ideas** to life.

2 PLANS

Remodeling and interior **design** plans are fundamental tools for transforming existing spaces into functional and aesthetically appealing environments. These detailed plans show room **layouts**, furniture placement, material selection, and decorative **details**.

From space rearrangement to color and texture selection, remodeling and interior design plans guide every step of the design and renovation **process**.

3 PACKAGES

For those who want a more **practical** solution, we continually develop integral furnishing and decoration projects with very interesting styles and starting prices that will surely fit your **style** and needs.

Our team is happy to help you if you wish a custom made project, it is possible to **personalize** every detail, from layout modifications, custom made furniture or unique handmade **elements**.

The sky is the limit.

4 CUSTOMIZED PROJECTS

Custom furniture adds a unique touch to any space, reflecting the **personality** and style of its owner. Furniture pieces are crafted with meticulous attention to **detail**.

From custom cabinets and shelves to custom built sofas and tables, these pieces are made to fit perfectly.

5 SKETCHING

Sketches are an invaluable tool in the design process, allowing people to visualize their **ideas** in three dimensions with an impressive level of detail. These digital sketches go beyond simple two-dimensional drawings, offering a realistic and precise representation of how a **finished** project will look like.

This tool facilitates the communication of ideas, streamline the design process, and help anticipate potential challenges or issues before they arise in reality.

In summary, **3D** sketches are a powerful tool that drives creativity and efficiency in the design process.

6 RENDERS

In the design **process**, where computer-generated images are created to visualize interior design.

By applying textures, lighting, and shadows to wireframe models, rendering brings concepts to life with **photorealistic** detail.
